Managed Hosting

Flywheel provides **hosting, maintenance and support** for all of our solutions, including websites, databases, mobile sites and business-to-business systems. Our infrastructure is flexible and will meet your needs from a performance, scalability and

How It Works

On a regular basis, Flywheel will:

- > Check to see if there are updates available for your system.
- > Keep your licenses current (if applicable).
- > Backup your site before making any changes.
- > Install updates into a staging environment.
- > Review and validate system.
- > Minimize downtime and apply the updates to your live site.
